

Project Initialization and Planning Phase

Date	09 July 2026
Team ID	SWTID-2026-5556
Project Name	Credit Card Approval Prediction using Machine Learning
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer applying for a credit card	Get quick approval for my credit card application	The approval process is slow and depends on manual verification	Banks need to verify applicant details and credit history before making a decision	applicant details and credit history before making a decision Frustrated and uncertain about whether my application will be approved
