

Empathy Map

Date	15 March 2024
Team ID	SWTID-2026-5556
Project Name	Credit Card Approval Prediction using Machine Learning
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS ☐ I want my credit card application to be approved quickly. ☐ I hope the process is simple and transparent. ☐ I need a fast response without unnecessary delays.	THINKS ☐ Will my application be approved or rejected? ☐ Is my income and credit history sufficient? ☐ I hope my information is evaluated fairly.
PERSONA NAME (Role / User Type)	

DOES

- ☐ Fills out the credit card application form.
- ☐ Provides personal, employment, and income details.
- ☐ Waits for the approval result.

FEELS

- ☐ Anxious about the approval decision.
- ☐ Frustrated if the process takes too long.
- ☐ Happy and confident when the application is approved
