

Data Flow Diagram

Date	09 July 2026
Team ID	SWTID-2026-5556
Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Represents the user who enters applicant details into the system.
Rectangle with numbered header	Process	Represents operations such as data validation, preprocessing, and prediction.
Rectangle (solid fill, no number)	Data Store	Represents the credit card dataset and trained machine learning model used for prediction.
Labeled arrow	Data Flow	Shows the movement of applicant information and prediction results between system components.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
