

Scalability & Future Plan

Date	09 July 2026
Team ID	SWTID-2026-5556
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited dataset size	Reduces prediction accuracy	High
2	No user authentication	Security concerns	Medium
3	Single prediction model	Limited scalability	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy on cloud servers for multiple users
2	Data Storage	Local dataset storage	Use cloud database (MySQL/MongoDB)
3	Performance	Basic ML model	Optimize model and use advanced algorithms
4	Security	No login system	Implement user authentication and encryption

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 1	Improve dataset quality and preprocessing	1 Month	Better prediction accuracy
Phase 2	Add user authentication system	2 Month	Enhanced security
Phase 3	Deploy application on cloud platform	3 Month	Increased scalability
Phase 4	Implement advanced AI models	4 Month	Improved prediction performance
